

CHAMELEON

Le Maitre®
PYROTECHNICS & SPECIAL EFFECTS

Striking flame columns and fire balls

The Chameleon is the ideal solution for anyone wanting to create a propane-style flame without the headaches. Using a re-loadable canister system, the Chameleon performs just like a propane system but at a fraction of the cost and set-up time. No accumulators or hoses to worry about, it can be set-up to strike in minutes and is tough enough for the most rigorous tours.

Flames can be fired in columns 3-4m high or in quick succession fire balls. Fuel canisters are available in natural (butane/propane) and red or green (methanol/ethanol).

Visit our website for further information, photos and videos

FEATURES

- Flame height up to 4m
- 90 secs of continuous flame from dual canisters
- Mini internal accumulator also produces fire balls
- Coloured fuels - red/green/natural
- Fuel types - propane/butane or ethanol/methanol
- Onboard programming
- 3 channel DMX
- Reliable hot surface flame ignition
- Tilt safety (flame solenoids shut down at 60 degrees)
- Outlet for warning beacon
- Easy to use LED display
- Warranty - 24 months*
- Made in the UK

* Use of fluids other than Le Maitre will invalidate the warranty

SPECIFICATION

SIZE (mm): 405(H) x 275(W) x 360(L)

POWER: 230V; 50/60Hz; 200W; 3.15A

WEIGHT: 12kg

FLUID COLOURS: Natural, Red
