The Chameleon is the ideal solution for anyone wanting to create a propane-style flame without the headaches. Using a reloadable canister system, the Chameleon performs just like a propane system but at a fraction of the cost and set-up time. No accumulators or hoses to worry about, it can be set-up to strike in minutes and is tough enough for the most rigorous tours.

Flames can be fired in columns 3 to 4m high or in quick succession fire balls. Fuel canisters are available in natural (butane/propane) and red or green (methanol/ethanol).
