

PYROMASTER

Sparkling flame fountains

Le Maitre®
PYROTECHNICS & SPECIAL EFFECTS

Distributed by Le Maitre USA LLC

Natural or multi-colored flames are fired into the air in conjunction with Sparklepowder to create dazzling spark fountains and balls projected to heights of 10ft to 20ft. Up to 50 single fountain effects can be created from a full load of Sparklepowder.

Methanol based colored aerosol canisters are available in red, green and blue. Natural canisters have the added advantage of being available in propane or ethanol versions.

Operation of the Pyromaster is via 5-channel DMX 512. Reliable ignition and a 40° safety tilt feature combined with rugged, compact construction make the Pyromaster a truly dependable touring machine. The perfect effect to make your event really stand out!
