

SALAMANDER QUAD PRO

*A stunning, high
flame effect*

The Salamander Quad Pro is a great 4 canister-based flame effect. Single continuous flames or flame balls reach up to 25ft in height when all four canisters are fired simultaneously or 12ft if fired individually.

Chases are lightning fast and visually stunning with fluid available in natural, red and green.

A unique firing system eliminates internal valves and accumulators so gas never remains in the system once the canister has been removed. Safety is further enhanced by a tilt-sensor and ignitor monitoring.
