

SALAMANDER

A great canister-based flame effect

The Salamander is a great canister-based flame effect. Single continuous flames or bursts are fired up to 4m in height with visually stunning lightning fast chases. Fluid canisters are available in multiple colours - Natural, Red, Green.

The compact footprint has been designed to allow up to four units to be coupled together to produce a single combined flame up to 6m.

A unique firing system eliminates internal valves and accumulators so gas never remains in the system once the canister has been removed. Safety is further enhanced by a tilt-sensor and ignitor monitoring.

FEATURES

- Flame height up to 4m (x1 unit) to 6m (x4 units)
- 30 secs of continuous flame or up to 50 short bursts
- Compact design
- Modular - easy coupling of up to 4 units
- Canister flame fluids
- Coloured fuels -natural/red/green
- Fuel types - propane/butane or ethanol/methanol
- Onboard programming
- 2 channel DMX
- Reliable hot surface flame ignition
- Safe - no internal valves or accumulators
- Tilt safety switch (can be disabled)
- Easy to use LED display
- External display for remote monitoring
- Warranty -12 months*
- Made in the UK

* Use of fluids other than Le Maitre will invalidate the warranty

SPECIFICATION

SIZE (mm): 433(H) x 170(W) x 204(L) (inc. handle)

POWER: 230V; 50/60Hz; 250W; 3.15A

WEIGHT: 8kg

COLOURS: Natural, Red, Green
