

MICROFOG

Portable, water-based smoke machine

The MicroFog takes the technology of the Genesis range of smoke machines and combines it with the user-friendly operation of an aerosol unit.

Robust and reliable, this low cost, hand-held smoke machine uses a water-based smoke fluid canister to create a dense fog effect.

Safe for use on live stage performances, it is also ideal for mobile DJs, schools and smaller venues.

For use with our specially formulated non-toxic, odourless, water-based fluid which complies with the ANSI Standards for Theatrical Fog and PLASA Fog Testing Program.
