

# Freezefog Pro – Low Fog Machine

Dramatic low-lying fog

## Features:

- Dramatic long hanging low fog
- Dry, white, water based effect
- Fog output up to 41000 cbm/hr
- Continuous output
- Modular quick disconnect fitting for LC02
- Use with low or high pressure CO2
- Use in conjunction with G300, GForce 2, GForce 3
- 120V and 110V versions available
- Available with road case
- Warranty – 12 months

Le Maitre's Freezefog Pro creates a powerful, controllable, low-lying fog effect or fog curtain when used in conjunction with G300, GForce-2 or GForce-3 and specially formulated Le Maitre Molecular Low Fog Fluid.

Le Maitre's Freezefog Pro is the original Low Smoke Generator or LSG, demanded by theatres, film sets, clubs, tours and theme parks around the globe for its ability to produce thick, dry, low-lying, white fog.

## Control & Programming

- Use with G300, GForce-2 or GForce-3
- Via fog machine - 2 channel DMX or optional Hand Held Remote
- Use in conjunction with low pressure or high pressure liquid CO2
- Automatic and continual flow control of fog machines: An extremely high accuracy thermal monitoring system combined with the microprocessor control and a highly stable patented heat exchanger, allows a self-management system to automatically adjust the flow rate for maximum conditions at any temperature.

## Performance

- Output (max): 41000 cubic metres/hr
- Warm up time as per fog machines 6 - 8 mins
- Operating Time: Continuous with automatic level adjustment
- Reheat time – none
- Fluid consumption 59cc/minute
- Tested and safe for use on live stage performances

## Freezefog Pro Low Fog Machine (continued)

### Fluids

- Molecular Low Smoke/Fog Fluid: Creates a thick odourless cloud of fog with a short hang time. In conjunction with the CO2 it creates a low fog effect similar to dry ice but without the wet residue.
- Quick/Extra Quick Dissipating Fluid: Dissipates 2x/4x as quickly as Molecular Fluid. Useful where smoke rising too quickly could be an issue. Also ideal to produce a burst of steam effect, nitrogen bursts etc.

*Le Maitre's fluids are included in the "Equipment Based Guidelines for the Use of Theatrical Smoke and Haze" prepared by Environ International Corporation and can be used in compliance with ANSI standards for theatrical fog and the PLASA (previously ESTA) Fog Testing Program. Copies can be found on [www.actorsequity.org](http://www.actorsequity.org).*

### Installation

- Orientation: Floor

### Physical / Electrical

- Size (HxWxL): 24"x 19.25"x 25.25"
- Weight: 39 lbs
- Power: As per Fog Machine

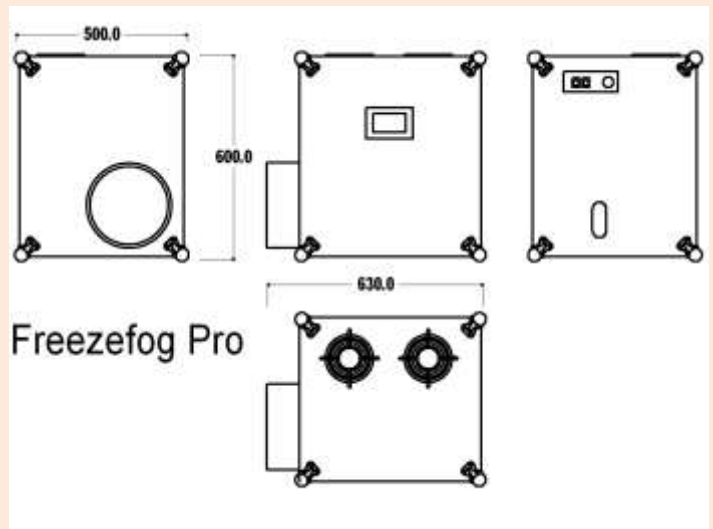

### Product Codes:

#### Machine & Accessories

3001A	Freezefog Pro LC02 Chiller Kit
3001TGF2	Freezefog Pro GForce 2 System
3001TGF3	Freezefog Pro GForce 3 System
3001TG300	Freezefog Pro G300 System
3001RCGF	Road Case Freezefog Pro & GForce
3001RCG300	Road Case Freezefog Pro & G300

#### Fluids

2899M	Molecular Low Smoke/Fog Fluid (4L)
2899C	Molecular Low Smoke/Fog Fluid (Case of 4 x 4L)
2899L	Molecular Low Smoke/Fog Fluid (20L)
2899D	Molecular Low Smoke/Fog Fluid (204L Drum)
2905M	Quick Dissipating Fluid (4L)
2905C	Quick Dissipating Fluid (Case of 4 x 4L)
2905L	Quick Dissipating Fluid (20L)
2905D	Quick Dissipating Fluid (204L Drum)
2906M	Extra Quick Dissipating Fluid (4L)
2906C	Extra Quick Dissipating Fluid (Case of 4 x 4L)
2906L	Extra Quick Dissipating Fluid (20L)
2906D	Extra Quick Dissipating Fluid (204L Drum)
