HazeMaster
Most Advanced & Powerful Hazer

Features:
- From huge output capacity down to a whisper
- Continuous output run-time
- Rugged construction – designed for the road
- High power variable fan speed
- Patented STAR technology
- Adjustable fan louvers for varying haze direction
- Rapid pre-heat time – 3 minutes
- Highly efficient – low power consumption
- Robust industrial grade air pump
- 2 channel DMX 512
- Digital display and rotary controls
- Easily replaceable conversion tube
- Optional flight case
- Warranty – 12 months

HazeMaster is Le Maitre's most advance and powerful hazer. With a massive output and rugged construction, it has been designed specifically for the road. A fully featured system, it also benefits from the health and safety benefits along with the absence of any oily residue as a result of its sugar based haze fluid.

Control & Programming
- Control is manual or via DMX 512
- Controllable:
  - Haze output
  - Fan velocity
  - Haze direction output: 20 - 90 degrees (manual)
- Pre-heat time - 3 minutes

Performance
- Fan output – up to 200 cubic metres/hr
- Fluid consumption – up to 750cc/hr (6.5 hrs/5L bottle)
- High current control of vapour tube
- Industrial grade air pump
- Fan control over wide range
- Large diameter hazing tube for extended working life
- Odourless; Non-greasy; Non-flammable; Non-carcinogenic
- Tested and safe for use on live stage performances
HazeMaster (continued)

Fluids
- Haze Fluid: A sugar based fluid designed to hang in the air and accentuate beams of light without creating a messy oily residue. Haze fluid is used in much smaller proportions to smoke fluid thus giving the benefit of atmosphere without the large consumable cost.

Le Maitre's fluids are included in the "Equipment Based Guidelines for the Use of Theatrical Smoke and Haze" prepared by Environ International Corporation and can be used in compliance with ANSI standards for theatrical fog and the PLASA (previously ESTA) Fog Testing Program. Copies can be found on www.actorsequity.org.

Installation
- Orientation: Floor or Truss (with adaption)

Physical / Electrical
- Size (HxWxL): 230 x 450 x 630mm
- Weight: 25 Kg
- Power: 230v, 50/60Hz, 800W

Product Codes:
- Machine & Accessories
  - 3009 HazeMaster 230V
  - 3009FC HazeMaster Flight Case

- Fluids
  - 2908 Haze Fluid 5L
  - 2916 Haze Fluid 200L

Specifications are subject to change without notice.
